Dear Hiring Manager,

I am writing in response to the Summer Analyst position at The Goldman Sachs Group, Inc. Please find my resume attached for your review.

As a Computer Science student at SRMSCET, I have developed a strong foundation in web development and programming. My coursework in Data Structures and Algorithms, coupled with hands-on experience in HTML, CSS, JavaScript, and Java, has provided me with robust technical skills. My current training in the MERN stack and involvement in live projects have honed my analytical and problem-solving abilities. I am confident that these experiences, combined with my strong work ethic and ability to work under pressure, make me a strong candidate for this role.

After many positive experiences in technical projects and coursework, I am excited about the opportunity to contribute to Goldman Sachs. I greatly respect your mission to advance client success, broaden individual prosperity, and accelerate economic progress. I believe my technical expertise and enthusiasm align well with your company's values and goals. For example, my experience in developing innovative solutions under tight deadlines demonstrates my alignment with your commitment to excellence and innovation.

I am eager to start working as a Summer Analyst and contribute to your team's success. I look forward to discussing my qualifications further and can be reached at (721)-720-5142 or via email at charushrivastava356@gmail.com.

Thank you for considering my application.

Sincerely,

Charu Shrivastava
